Forward-looking statements

You'll hear some forward-looking statements in today's presentation.

All statements other than statements of historical fact are statements that could be deemed forward-looking statements.

Our actual results could differ materially and we assume no obligation to update.

Financial information, plans, and projections reflect estimates based on information available at the time of this presentation.

These are based on risks and assumptions that may not prove correct.

These risks and assumptions are described in our latest Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q.

More detail can be found in your written materials.

Please see the slide designated "Forward-looking statements" in the Agenda and Disclosures presentation available.

Use of non-GAAP financial information

This presentation includes presentation of certain non-GAAP financial information.

We believe that providing these non-GAAP financial measures, alongside the corresponding GAAP measures, provides greater transparency to the information used by HPE's management in its financial and operational decision-making and provides a supplemental view to understand our historical and prospective operating performance.

These non-GAAP financial measures may have limitations as analytical tools. Some of the limitations in relying on these non-GAAP financial measures are that they may be calculated

differently by other companies, limiting the usefulness of those measures for comparative purposes, can differ materially from the comparable GAAP measures due to exclusion of items mentioned above and may not reflect the full economic effect of the loss in value of certain assets.

These measures should not be considered in isolation or as a substitute for analysis of HPE's results as reported under GAAP.

HPE's three-year strategic priorities to accelerate shareholder value

WIN IN THE MARKET

- Build a new networking industry leader
- Capture AI infrastructure growth, profitably, with a focus on sovereign and enterprise customers
- Accelerate our high-margin software and services growth through GreenLake
- Capitalize on unstructured data market growth with our own IP through Alletra MP
- Drive customer transition to next-generation server platforms

Drive operating leverage

- Deliver approximately \$1 billion in annualized structural cost savings by FY28 to our shareholders through Juniper synergies and Catalyst initiatives
- Return to 2x EBITDA² leverage range by the end of FY27

Accelerate capital returns

- Generate more than \$3.5 billion in FCF¹ by FY28
- Increase dividends and share buybacks

Reaffirming our FY25 non-GAAP outlook

REVENUE GROWTH ^{1,5}	14-16% (in constant currency)
NON-GAAP OPERATING PROFIT ²	4-7% growth
NON-GAAP DILUTED NET EPS ³	\$1.88 – \$1.92
FREE CASH FLOW ^{4,5}	~\$0.7B (including impacts of closing Juniper)

1. In constant currency. Excludes foreign currency negative impact of 150 basis points. A description of HPE's use of non-GAAP financial information is provided at the end of this presentation.

2. FY25 GAAP operating profit growth estimate is (123)-(120)%. FY25 non-GAAP operating profit excludes costs of approximately \$3.8 billion primarily related to impairment of goodwill, acquisition, disposition and other charges, stock-based compensation expense, and amortization of intangible assets. A description of HPE's use of non-GAAP financial information is provided at the end of this presentation.

3. FY25 GAAP diluted net EPS estimate is \$0.03 – \$0.07 per diluted share. FY25 non-GAAP diluted net EPS estimate excludes net after-tax adjustments of approximately \$1.85 per diluted share, primarily related to impairment of goodwill, acquisition, disposition and other charges, stock-based compensation expense, and amortization of intangible assets, partially offset by tax adjustments and the gain from the disposition of Communications Technology Group. A description of HPE's use of non-GAAP financial information is provided at the end of this presentation.

4. For the definition of free cash flow see slide 67. A description of HPE's use of non-GAAP financial information is provided at the end of this presentation.

1. Includes telco and cloud providers

2. Storage includes GreenLake Flex and software

3. Annualized Revenue Run-Rate ("ARR") is a financial metric used to assess the growth of the Consumption Services offerings. ARR represents the annualized revenue of all net HPE GreenLake cloud services revenue, related financial services revenue (which includes rental income from operating leases and interest income from finance leases), and software-as-a-Service, software consumption revenue, and other as-a-Service offerings, by taking such revenue recognized during a quarter and multiplying by four. To better align the calculation of ARR with Juniper Networks' business and offerings, beginning with the quarter ended July 31, 2025, we also included revenue from software licenses support and maintenance in our ARR calculation, and will continue to do so going forward. The impact of this change was not material. We use ARR as a performance metric. ARR should be viewed independently of net revenue and is not intended to be combined with it.

NON-GAAP DILUTED NET EPS³	At least \$3 /share by FY28		
FREE CASH FLOW^{4,5}	Exceed \$3.5 billion by FY28		
RETURN OF CAPITAL	Accelerating share repurchase		Sustained dividend growth

1. Growth rates include FY25 results normalized to include 8 months of Juniper results pre-acquisition close.

2. Revenue growth outlook for Networking and HPE overall without the above normalized treatment is expected to be 22-23% and 8-11%, respectively. Cloud & AI revenue growth is expected to be unchanged.

3. GAAP diluted net EPS is estimated to be approximately \$1.93 per diluted share by FY28. Non-GAAP diluted net EPS estimate excludes net after-tax adjustments of approximately \$1.07 per diluted share, primarily related to amortization of intangible assets and stock-based compensation expense. GAAP diluted net EPS guidance does not reflect any potential gains or losses from the disposition of its remaining interest in H3C. 1. Growth rates include FY25 results normalized to include 8 months of Juniper results pre-acquisition close.

2. Revenue growth outlook for Networking and HPE overall without the above normalized treatment is expected to be 59-63% and 17-22%, respectively. Cloud & AI revenue growth is expected to be unchanged.

3. FY26 GAAP operating profit growth estimate without the above normalized treatment is expected to be 435-445%. FY26 non-GAAP operating profit excludes costs of approximately \$2.9 billion primarily related to amortization of intangible assets, stock-based compensation expense, acquisition, disposition and other charges, and cost reduction program. A description of HPE's use of non-GAAP financial information is provided at the end of this presentation.

4. GAAP diluted net EPS is estimated to be approximately \$0.57-\$0.77 per diluted share for FY26. Non-GAAP diluted net EPS estimate excludes net after-tax adjustments of approximately \$1.63 per diluted share, primarily related to amortization of intangible assets, stock-based compensation expense, and acquisition, disposition and other charges. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Hewlett Packard Enterprise Company and its consolidated subsidiaries (“Hewlett Packard Enterprise”) may differ materially from those expressed or implied by such forward-looking statements and assumptions. The words “believe”, “expect”, “anticipate”, “guide”, “optimistic”, “intend”, “aim”, “will”, “estimates”, “may”, “could”, “should” and similar expressions are intended to identify such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including but not limited to any anticipated financial or operational benefits associated with the forthcoming segment realignment, any statements regarding the ongoing integration of Juniper Networks, Inc., and any projections, estimates, or expectations of savings or synergy realizations in connection therewith; any projections, estimations, or expectations of addressable markets and their sizes, revenue (including annualized revenue run-rate), margins, expenses (including stock-based compensation expenses), investments, effective tax rates, interest rates, the impact of tax law changes and related guidance and regulations, net earnings, net earnings per share, cash flows, liquidity and capital resources, inventory, goodwill, impairment charges, order backlog, benefit plan funding, deferred tax assets, share repurchases, currency exchange rates, repayments of debts including our asset-backed debt securities, or other financial items; recent amendments to accounting guidance and any potential impacts on our financial reporting therefrom; any projections or estimations of orders; any projections of the amount, timing, or impact of cost savings or restructuring charges; any statements of the plans, strategies, and objectives of management for future operations, as well as the execution and consummation of cost reduction actions, corporate transactions or contemplated acquisitions and dispositions (including but not limited to the disposition of shares of H3C Technologies Co., Limited (“H3C”) and the receipt of proceeds therefrom), research and development expenditures, and any resulting benefit, cost savings, charges, or revenue or profitability improvements; any statements concerning the expected development, performance, market share, or competitive performance relating to our products or services; any statements concerning technological and market trends, the pace of technological innovation, and adoption of new technologies, including artificial intelligence-related and other products and services offered by Hewlett Packard Enterprise; any statements regarding current or future macroeconomic trends or events and the impacts of those trends and events on Hewlett Packard Enterprise and our financial performance, including our actions to mitigate such impacts on our business; any statements regarding future regulatory trends and the resulting legal and reputational exposure, including but not limited to those relating to environmental, social, governance, cybersecurity, data privacy, and artificial intelligence issues, among others; any statements regarding pending investigations, claims, or disputes; any statements of expectation or belief, including those relating to future guidance and the financial performance of Hewlett Packard Enterprise; and any statements of assumptions underlying any of the foregoing.

Risks, uncertainties, and assumptions include the need to address the many challenges facing Hewlett Packard Enterprise’s businesses; the competitive pressures faced by Hewlett Packard Enterprise’s businesses; risks associated with executing Hewlett Packard Enterprise’s strategy; the impact of macroeconomic and geopolitical trends and events, the need to effectively manage third-party suppliers and distribute Hewlett Packard Enterprise’s products and services; the protection of Hewlett Packard Enterprise’s intellectual property assets, including intellectual property licensed from third parties and intellectual property shared with its former parent; risks associated with Hewlett Packard Enterprise’s international operations (including from geopolitical events); the development and transition of new products and services and the enhancement of existing products and services to meet customer needs and respond to emerging technological trends; the execution of Hewlett Packard Enterprise’s transformation and mix shift of its portfolio of offerings; the execution and performance of contracts by Hewlett Packard Enterprise and its suppliers, customers, clients, and partners, including any impact thereon resulting from macroeconomic or geopolitical events; the hiring and retention of key employees; the execution, integration, consummation, and other risks associated with business combination, disposition, and investment transactions, including but not limited to the risks associated with the disposition of H3C shares and the receipt of proceeds therefrom and successful integration of Juniper Networks, Inc., including our ability to implement our plans and forecasts and realize our anticipated financial and operational benefits with respect to the consolidated business; the execution, timing, and results of any cost reduction program or actions, including estimates and assumptions related to the costs and anticipated benefits of implementing such plan; the impact of changes to privacy, cybersecurity, environmental, global trade, and other governmental regulations; changes in our product, lease, intellectual property, or real estate portfolio; the payment or non-payment of a dividend for any period; the efficacy of using non-GAAP, rather than GAAP, financial measures in business projections and planning; the judgments required in connection with determining revenue recognition; impact of company policies and related compliance; utility of segment realignments; allowances for recovery of receivables and warranty obligations; provisions for, and resolution of, pending investigations, claims, and disputes; the impacts of legal and regulatory changes and related guidance; and other risks that are described in Hewlett Packard Enterprise’s Annual Report on Form 10-K for the fiscal year ended October 31, 2024, subsequent Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and in other filings made by Hewlett Packard Enterprise from time to time with the Securities and Exchange Commission.

As in prior periods, the financial information set forth in this presentation, including tax-related items, reflects estimates based on information available at this time. While Hewlett Packard Enterprise believes these estimates to be reasonable, these amounts could differ materially from reported amounts in the Hewlett Packard Enterprise’s Quarterly Report on 10-K for the fiscal year ended October 31, 2025. Hewlett Packard Enterprise assumes no obligation and does not intend to update these forward-looking statements, except as required by applicable law.

Use of non-GAAP financial information

HPE's management uses net revenue on a constant currency basis, including at the business segment level as more than half of HPE's revenue is generated outside of the U.S., non-GAAP gross profit, non-GAAP gross profit margin, non-GAAP operating profit, non-GAAP operating profit margin (non-GAAP operating profit as a percentage of revenue), Earnings Before Interest, Taxes, Depreciation, and Amortization ("EBITDA"), non-GAAP income tax rate, non-GAAP net earnings, and non-GAAP diluted net earnings per share, to evaluate and forecast HPE's performance before gains, losses or other charges that are considered by HPE's management to be outside of HPE's operating results. Cash flow from operations and free cash flow are liquidity measures that provide useful information to management about the amount of cash available for investments in HPE's businesses, funding acquisitions, repurchasing stock and other purposes.

We believe that providing these non-GAAP financial measures, in addition to the related GAAP measures, provides investors with greater transparency to the information used by HPE's management in its financial and operational decision-making and allows investors to see HPE's results "through the eyes" of management. We further believe that providing this information provides investors with a supplemental view to understand our historical and prospective operating performance and to evaluate the efficacy of the methodology and information used by management to evaluate and measure such performance. Disclosure of these non-GAAP financial measures also facilitates the comparison of HPE's operating performance with performance of other companies in HPE's industry that supplement their GAAP results with non-GAAP financial measures that may be calculated in a similar manner.

These non-GAAP financial measures may have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of HPE's results as reported under GAAP. For example, items such as stock-based compensation expense, acquisition, disposition and other charges, H3C divestiture related severance costs, and disaster charges (recovery) that are excluded from non-GAAP gross profit and non-GAAP gross profit margin can have a material impact on the equivalent GAAP earnings measure and cash flow. Items such as amortization of intangible assets, though not directly affecting HPE's cash position, represent the loss in value of intangible assets over time. The expense associated with this loss in value is not included in non-GAAP operating profit, non-GAAP operating profit margin, non-GAAP income tax rate, non-GAAP net earnings, or non-GAAP diluted net earnings per share, and therefore does not reflect the full economic effect of the loss in value of those intangible assets. In addition, items such as transformation costs, and divestiture related exit costs that are excluded from non-GAAP operating profit, non-GAAP operating profit margin, EBITDA, non-GAAP income tax rate, non-GAAP net earnings, and non-GAAP diluted net earnings per share can have a material impact on the equivalent GAAP earnings measures and cash flow. Items such as, adjustments to non-service net periodic benefit cost/credit, litigation judgments, tax indemnification and related adjustments, adjustments for equity interests, gain on sale of a business, and gain/loss on investments, net that are excluded from non-GAAP income tax rate, non-GAAP net earnings, and non-GAAP diluted net earnings per share can have a material impact on the equivalent GAAP earnings measure and cash flow. Items such as excess tax benefits from stock-based compensation, structural rate adjustment and the related tax impact from other non-GAAP measures that are excluded from the non-GAAP income tax rate, non-GAAP net earnings, and non-GAAP diluted net earnings per share can also have a material impact on the equivalent GAAP earnings measures and cash flow. In addition, free cash flow does not represent the total increase or decrease in cash for the period.

Some of the limitations in relying on these non-GAAP financial measures are that they may be calculated differently by other companies, limiting the usefulness of those measures for comparative purposes, can differ materially from the comparable GAAP measures due to exclusion of items mentioned above and may not reflect the full economic effect of the loss in value of certain assets. We compensate for the limitations on our use of these non-GAAP financial measures by relying primarily on our GAAP financial statements and using non-GAAP financial measures only as a supplemental. We also provide robust and detailed reconciliations of each non-GAAP financial measure to the most directly comparable GAAP measure, and we encourage investors to review those reconciliations carefully.

HPE provides certain forward-looking guidance on a non-GAAP basis only. Hewlett Packard Enterprise is unable to provide a reconciliation to the most directly comparable GAAP financial measure without unreasonable efforts, as the Company cannot predict some elements that are included in such directly comparable GAAP financial measure. These elements could have a material impact on the Company's reported GAAP results for the guidance period. Refer to the discussion of non-GAAP financial measures below for more information.

1. Effective at the beginning of the first quarter of fiscal 2025, in order to align its segment financial reporting more closely with its current business structure, HPE implemented an organizational change with the transfer of certain managed services, previously reported within the Server reportable segment, to the Hybrid Cloud reportable segment. FY23 and FY24 segment operating profit has been revised for this organizational change.

1. Effective at the beginning of the first quarter of fiscal 2026 HPE plans to implement an organizational change by (i) merging the Server, Hybrid Cloud, and Financial Services business segments into a new segment named Cloud & AI and (ii) transferring the Telco and Instant On businesses to Corporate Investments and Other from Networking. These changes had no impact on HPE's previously reported consolidated net revenue, net earnings, net earnings per share or total assets.
